SUBJECT: Project # 41.995

I am attaching the final report on the above project for transmission to RQM/OIS, Case Number K-370. I am the author and analyst responsible for consultation.

The project was initiated in March 1954 in compliance with the memorandum to AD/RR, Att'n Chief, St/PG, from Chief, RQM/OIS, Reference: K-370, dated 12 March 1954. Owing to the introduction of the new rules concerning reports prepared on requests of such kind, a formal Project Action Memorandum was requested on 14 October 1955 and issued on 26 October 1955. Hours used in producing the attached final report after the issuance of the PAM were 64.5. An account of the total number of hours spent on the whole project, which was much larger, cannot be given since, prior to the assignment of the above project number, these hours were not accounted for separately.

I certify that the classification SECRET/NOFORN is the proper classification for this report as determined from the sources used.
